year '68

Mary -

Well Mary I don't exactly know how to start out with this signing. I want to say so many things & tell you how much I've really enjoyed having you in some of my classes, but that would take too long & besides I think you know how I feel!

When Becky is gone this summer, we will just have to get together & have a ball ourselves! I'm not for sure if I'll be going or doing anything this summer. (I sure hope so!) Well I had better quit for now & get some of my long awaiting typing done.

Be good & all of the most & best happiness to you always.

Love ya,
Diana

Mary,

Well, this has been a hectic year for me, especially since it is my last year and yet my first y. at VHS. But I'm glad we made friends. I've enjoyed knowing you this past year. Best of luck in your future at VVHS & in later life.

Luck & Love,
Paul

Dearest Mary -

The Future is yours! No matter which way you decide to take! You're doing simply great at Pom Pon and no matter what happens next year you're going to be even higher on top than you were this year.

May the future hold its best for you and may your attitude towards life continue.

With much love

always
Becky

1967 ANNUAL STAFF

presents

DEVIL TIMES

Dedication

We, the Annual Staff of 1966-67, do hereby dedicate this "Devils Times" to Mr. Frank Lopez in appreciation for the help with our Annual for the past four years. You have helped make our Annual what it is today.

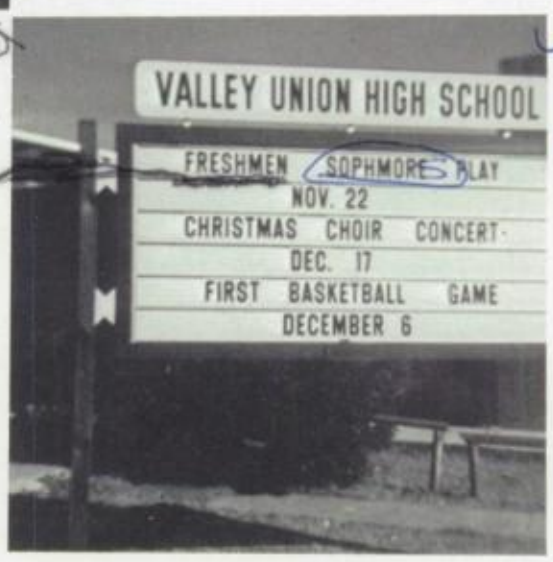
Valley Union

Alma Mater

In the shadow of the Mountain
'neath the dark blue sky,
proudly stands our Alma
Mater, Valley Union High

Swell the chorus speed it on-
ward, while the golden light,
softly falls upon our colors,
Royal Blue and White

Blue Devils



It has been accepted through the ages that progress is only being made if the appropriate sounds are heard. If sounds can identify education well and good, but we in the field of education know that some of the most important contributions to education are often never heard. Sounds of learning through "school activities" often ring the loudest but the most progress will be made by the student who feels the need of succeeding and never deviates from his goals regardless of the many obstacles. The sound all of us like to hear is "you have done a wonderful job." I feel that the youth today have the golden opportunity to succeed in any field of endeavor. The opportunity is theirs and they are the only ones that can accept it.

John W. Grimes
Principal

In any school government, each student should understand that developing citizenship, cooperation, and classwork are his responsibilities to the instructor, his classmates, and the pride of his school.

Joe Howell
Student Council President

Those who succeed best in life, regardless of occupation, are students who can better solve their own problems. Other things being equal the uneducated person cannot compete with the educated person. While you are in school, study hard and apply yourselves to the task of preparing yourselves for a more pleasant and profitable life ahead.

Pat English
Vice-Principal

As you look through the pages of our "Devil Times" may you think of many treasured memories of classmates, teachers, and activities.

I hope that through this annual you will remember this year 1966-67 for many years to come.

Dear Mary,

As a Senior and one of your good friends (I hope) I want to wish you all the blessings of life which you deserve. When you use my "abilities" which I willed to you, remember me. Mary, I honestly think very highly of you and all you stand for, and I like that pretty face and smile of yours. So be a "cool chic" O.K. and be sure that you get ~~out~~ what you want out of life.

With Sincere hopes
for a prosperous future,
Love Joe

Mary you're in the door with the best personality I've met in a long time. Don't ever change. I wish you the best of luck in the world. I would like to see you more often. Have a good year.

Dear Mom,

Thanks so much for the wonderful package you sent me. I really appreciate it. The cookies were delicious, and I shared them with my friends here. Everyone loved them, especially the chocolate chip ones. They were a big hit!

Classes are going well so far. My professors are challenging, but I'm learning a lot. I've been spending most of my time studying and working on assignments, but I've also been making sure to take breaks and explore the city. There's so much to see and do here!

I've been keeping busy with my part-time job at the campus bookstore. It's a great way to meet people and earn some extra money. I've been working there for about three months now, and I really enjoy it. My coworkers are friendly and helpful, and I've learned a lot about customer service and time management.

I've been trying to eat healthy and exercise regularly, but it's been difficult with my busy schedule. I've been going to the gym a few times a week, but I need to do more. I've also been trying to cook more meals at home instead of eating out all the time. It's been a challenge, but I'm determined to make it work.

I've been thinking about you and missing home a lot lately. I can't wait to see you and the rest of the family during the holidays. I'm counting down the days until I can come home and relax for a while. I've been looking forward to your visit for months now, and I'm so excited to spend some quality time with you.

Love you lots,

P.S. Don't forget to send me the recipe for those delicious cookies! I've been craving them ever since I received the package.

Dear Mary,

You have already discovered "joy" is where you find it. Now "discover" you are an intellectual and that without being so you are lost. One cannot live by people and bread, but need themselves too! You are grand and I love you.

Dear Mary,

You're really a sweet gal and real cute, too! You have added light with your personality and cute little smile. So I'm glad you like your school. Our school life and our cute little girls are the greatest. Our school would really try to be more like yours, so we could do it + do it well. I wish all the girls can do it + stay just like you do. I like your dress but it takes lots of work at home. Keep up the good luck in all your abilities to everyone.

Love,

Mary,
Having a wonderful time at the present and I'm sure you are too. P.S. Does your dress have a name. Maybe you could do mine. Stay just like you are and you will find that one person who is one person's advantage. It's great being a girl next year. It's great being a girl and if you're one person who can use many abilities to everyone you will find that you're really the greatest. Our school life and our cute little girls are the greatest. Our school would really try to be more like you, so use your
